Forecast For Scotland
Issued by Met Office Aberdeen
at 0400 on Tuesday 19 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mostly dry, but rain spreading from south. Showers far north.

Today:
Mostly dry but turning cloudy in Central Belt. South overcast with rain edging north and turning persistent and heavy at times into afternoon, with snow developing across southern Uplands. Showers, brighter spells in far north. Elsewhere dry with limited brightness.

Tonight:
Periods of rain and snow in south soon extending across Central Belt early evening, then to Northeast overnight as strengthening northerly winds develop. Northwest rather cloudy with scattered showers.

Wednesday:
Cloudy with showers or longer periods of rain, sleet and snow. Best chance of brighter spells towards Argyll and Hebrides. Tending to turn drier from Central Belt southwards from evening.

Outlook for Thursday to Saturday:
Showers or longer periods of rain and snow spreading across country on brisk northerly winds Thursday and Friday. Outbreaks dwindling Saturday, then rain feeding to the far south later.
